

SOMNI

VETERINARY

SOMNI REBREATHING ANESTHESIA SYSTEM

QUALITY:

- H-frame provides exceptional support and stability.
- 3" wheels for ease of transport.
- High quality, durable, limited maintenance design.
- Silicone tubing and gaskets throughout.
- Designed to switch from a rebreathing circuit to a non-rebreathing circuit with a simple toggle switch.

COMPATIBLE ACCESSORY OPTIONS

- Dual Vaporizer
- Bain Block Manifold
- Dual Gas supply
- Dual E-cylinder
- O2 Concentrator mount
- 5 year warranty

SAFETY:

- Pressure Manometer center mount for immediate visibility.
- Popoff valve releases excess pressure at 20cm H2O while maintaining passive volume in the rebreathing bag.
- The oxygen toggle switch works as a built-in safety system, that keeps the pressure at 20PSI. This is designed with patient and user safety in mind.

CONVENIENT:

- Lightweight, small footprint, easy assembly.
- Easily Configured shelves for additional workspace or accessories.
- Powder coated and anodized frame for easy cleaning.
